# MECHANICAL PERMIT APPLICATION REQUIREMENT CHECKLIST

The following items must be provided in order to properly apply for a building permit.  
PLANS AND APPLICATION CANNOT BE ACCEPTED IF INFORMATION IS INCOMPLETE.

1. Indicate mechanical unit location(s) on the roof plan.
2. Structural design calculations are required by a licensed architect or engineer to verify the adequacy of the roof to support the unit. Lateral calculations are required if units weigh over 400 pounds.
3. Submit documentation showing compliance with W.S.E.C. and V.I.A.Q.
4. Rooftop mechanical equipment requires screening that is architecturally compatible with the building if the equipment extends above the roofline.
5. Equipment requires 110 volt outlets within 25 feet of unit and disconnects outside the equipment.
6. If over 2000 cfm, equipment must shut down with activation of fire alarm system (duct detectors or fire alarm system).
7. Commercial kitchen equipment must comply with IMC Section 507 and 508.
8. If mechanical equipment is ground-mounted, then a site plan drawn to scale showing building footprint and equipment location relative to building and property lines. Show location of adjacent streets, alleys, or access tracts or easements. Include dimensions from mechanical unit(s) to all property lines and structures. (Example drawn below.)
9. Contractor's UBI number and a copy of contractor's registration card are required prior to permit issuance.
10. Total project cost.
11. Information showing compliance with noise standards at the property line. See Chapter 173-60 WAC for Washington State adopted.
12. Manufacture's brochure or manual with unit specifications.
13. Screening may be required. Contact the Planning Department 425-587-3225.
14. If screening is required, plans and engineering must be included with this application.
