Re: Building Height Location Compliance Letter

**Site Address:
10143 NE 64th Street
Kirkland, WA 98033**

This letter is to certify that the ridge height elevation of the new residence is within the building height elevation required by permit # BSF-14-04537.

Based on an actual field survey on October 19, 2015 of the new residence and based on the approved set of plans. The as built ridge height is 96.60', which is 0.21' lower than the approved set of planned elevation of 96.81'. Based on the information surveyed on October 19, 2015, the ridge height is within the maximum ridge height required by the approved set of plans under permit number # BSF-14-04537.

Respectfully ,

Dan Touma, PLS
